Risk Management in Energy - 2020

«Raw-eil-industrial data refining. New source of energy income for digital production. BUT only valid with TRUSTED data»

Andrey Suvorov CEO, Adaptive Production Technology LLC (APROTECH)

28 May 2020

Digital production: RISK

TOP 10 RISKS 2020 - NEW PRIORITIES

2019: 37% (2)

Cyber incidents (e.g. cyber crime, IT failure/outage, data breaches, fines and penalties)

2019: 37% (1)

Business interruption (incl. supply chain disruption)

2019: 27% (4)

Changes in legislation and regulation (e.g. trade wars and tariffs, economic sanctions,

protectionism, Brexit, Euro-zone disintegration)

2019: 28% (3)

Natural catastrophes¹ (e.g. storm, flood, earthquake)

2019: 23% (5)

Market developments
(e.g. volatility, intensified competition/new

entrants, M&A, market stagnation, market fluctuation)

2020 - 1

2016 - 3

2013 - 13

2019: 19% (6)

Fire, explosion

2019: 13% (8)

Climate change /increasing volatility of weather

2019: 13% (9)

Loss of reputation or brand value

2019: 19% (7)

New technologies (e.g. impact of Artificial Intelligence.

autonomous vehicles, 3D printing, Internet of Things, nanotechnology, blockchain)

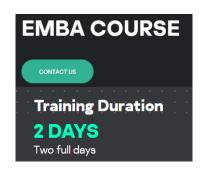

NEW

Macroeconomic developments

(e.g. monetary policies, austerity programs, commodity price increase, deflation, inflation)

WHAT CAN WE DO WITH THIS RISK

Executive communication Unplanned outages cost

TRANSFER

Cyber insurance Legislation **MITIGATE**

People Process Technology

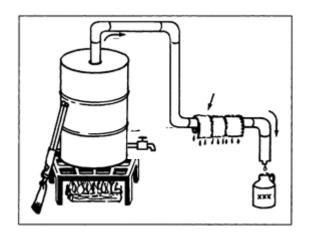

Digital production: Opportunity

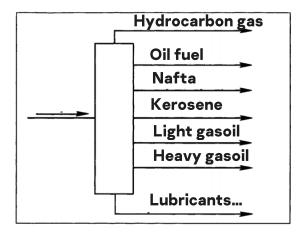

Do you remember – crude oil story...

Crude oil as energy before XIX cen.

Kerosene for oil lamps XIX – начало XX века Deep separation Today

0%

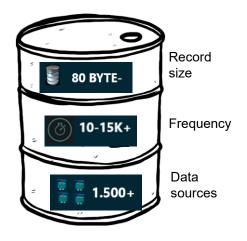

40%

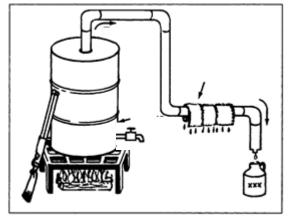

90%+

Case studies

To increase business values due to deeper industrial data collection and processing

15+% - up to 100%

O&G (Europe)

Outage prevention:

Pump failure prediction (12 days in advance)

SKF

New business model:

Rotation-as-a-service

Source: Siemens projects

Our flagship case study

Result:

- Digital application
- 10 dynamic KPI's
- Agile deployment
- Trusted data (Industrial GW)

WHO WE ARE

«Adaptive production Technology» (APROTECH)

kaspersky

Silver Partner

SIEMENS

Partnership:

MindSphere

IKS 1000GP (AVAILABLE!)

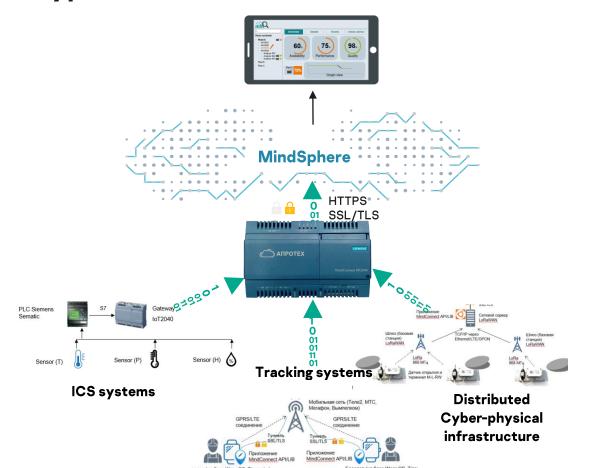

Trusted industrial data:

- Vertical architecture
- Asset connection to IIoT platform
- Secure by design

Typical architecture

MindApps (digital services)

MindSphere (IIoT platform)

IKS 1000GP (Industrial GW)

Assets (industrial data)

THANK YOU

- Cyber RISK your Board Room next meeting topic
- "Raw" industrial data new source of your income. Trusted data.
- Ready to share our expertise and drill your industrial data
