

The Procedure and Terms of Affording Access to the Gas Transmission System of Gazprom OJSC

- **Federal Law:**

- **No. 69-Φ3 "On Gas Supply in the Russian Federation" dated 31.03.1999**

- **Decrees of the Government of the RF:**

- **No. 162 "On Approving the Rules of Gas Delivery in the Russian Federation" dated 05.02.1998,**

- **No. 858 "On Affording Access to the Gas Transmission System of Gazprom OJSC for Independent Entities" dated 14.07.1997**

- **"independent entity"** - *an entity which is not affiliated with Gazprom OJSC (independent gas producer, supplier or consumer);*
- **"Gas Transmission System of Gazprom OJSC"** – *the unified gas supply system of Gazprom OJSC including main gas pipelines and distributing gas pipelines;*
- **"available gas transmission system capacity"** - *a technically feasible capacity of the system to receive and transmit gas excluding volumes of gas transmission for the entities affiliated with Gazprom OJSC and independent entities in accordance with effective contracts at a certain moment, as well as in accordance with the decisions of the President of the Russian Federation and the Government of the Russian Federation on mandatory gas delivery by the entities affiliated with Gazprom OJSC.*

- **Priority** of reliable gas supply to the consumer's categories determined by the law and of fulfilling international commitments.
- **Equal opportunity** of access to the Unified Gas Supply System facilities for independent gas producers.
- **Respect to** the rights and legitimate interests of the Unified Gas Supply System proprietor.
- **Development** of gas transmission facilities.
- **Responsibility** of the parties for fulfilling their commitments.
- **Transparency** of information.

Data required for an APPLICATION:

- **gas supplier's details;**
- **gas sources and their specifications;**
- **gas delivery start and finish dates;**
- **Intended volumes of gas to be delivered;**
- **gas delivery terms (interrupted or continuous);**
- **quality characteristics and specifications of gas to be delivered;**
- **connection point to the Gas Transmission System of Gazprom OJSC;**
- **gas destination point;**
- **confirmation of the gas distribution entity's and the consumer's readiness to receive the gas specified in the Application during the delivery period;**
- **documentary evidence of ownership for the gas or the existence of contractual undertakings to buy/sell gas.**

Types of Contracts:

- **"short-term contract"** - a contract concluded for a period which does not exceed 1 year;
- **"medium-term contract"** - a contract concluded for a period which exceeds 1 year, but which does not exceed 5 years;
- **"long-term contract"** - a contract concluded for a period which exceeds 5 years.

The Conditions of Affording Access to the Gas Transmission System

- the gas transmission system must have available capacities from the connection point to the gas destination point for the estimated gas delivery period;
- the quality and parameters of the gas to be delivered must comply with the standards and specifications applicable to the system of Gazprom OJSC and other reference documents;
- the suppliers must have supply pipelines and buyers must have branch pipelines equipped with gas measuring and quality control facilities.
